

APOGEE is the Easiest Launch Monitor to Own and Use

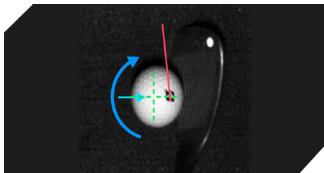

Your Game, Your Equipment - APOGEE accurately measures club and ball data without specialty balls or marked clubs.

APOGEE Intelligent Dashboard - Constant Calibration allows for uninterrupted play. The A.I.D. maintains a direct line of contact with our US based support team to ensure the best possible user experience.

APOGEE's P.o.P. Suite Increases the Pace of Play

Laser Launch Pad - Players can easily see the hitting area and ready-status, reducing missed shots and frustrating do-overs.

APOGEE Voice Assistant - Players can navigate E6 software with voice commands, dramatically decreasing the time it takes to complete an indoor round.

Point of Impact Replay - APOGEE provides Slow-Motion, Scrubbable Video Replay after every shot during Practice and Course Play.

Send Shots Faster with Instant Impact - The time between a real-world strike and on screen display is instantaneous - up to 12x faster than the competition.

Future-Proof - APOGEE's on-board processor optimizes software performance, resulting in noticeably higher frame rates for an unmatched indoor golf experience.
